

## About us

CIBORIUS was established in 2006 by the owner Andreas CIBORIUS and has stood for years for dedicated and goal-driven work. Our steadily growing customer base reflects the satisfaction with our security and services.

As an owner-operated company with a corporate structure, we depend on short decision-making processes and flat hierarchies. We take a flexible and uncomplicated approach to our clients' wishes.

The Ciborius group has several subsidiaries in over 100 locations. We have vast expertise and advise large, renowned companies and several state and federal authorities.

## Quality and standards

Quality is measured based on standards and quality management systems.

Not only is the quality of the security service provided crucial, the effectiveness of the processes in the company and cooperation with clients are also essential.

ISO 9001

ISO 14001

ISO 77200

## Philosophy

We can build up customer satisfaction and confidence only with a holistic approach to solutions and responsible actions. With a broad, future-oriented range of services, we want to actively contribute to our clients' economic success. CIBORIUS stands for FLEXIBILITY, CONFIDENCE and SECURITY.

The CIBORIUS companies are renowned companies that work throughout Germany to achieve security for their clients. The focus is on the client's satisfaction. We work towards a trusting cooperation in which our experience and performance contribute to the client's success.

With internal and external quality controls, CIBORIUS optimises workflows and ensures high-quality services.

## Concept

CIBORIUS has many years of experience in consulting clients in various branches in the private and public sector as well as private individuals. We know that the requests we receive arise from our clients' individual security needs.

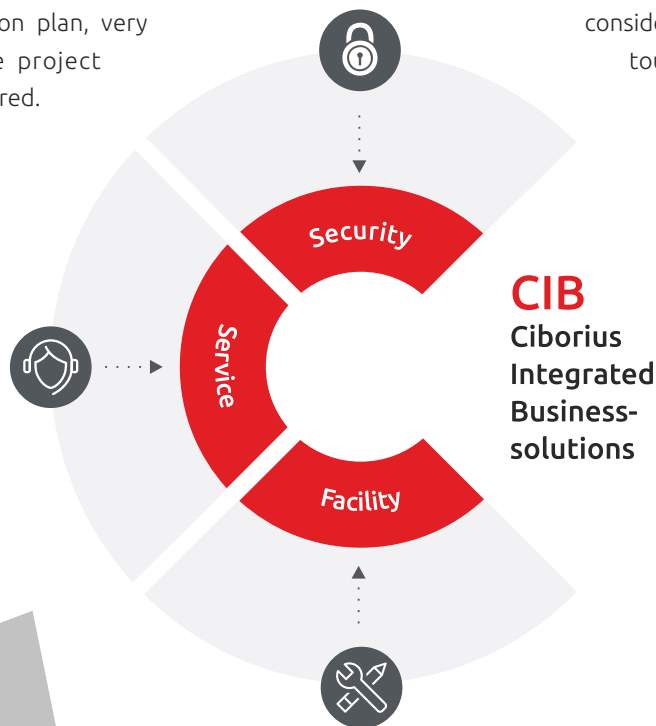

To meet these requirements, an analysis of the current situation is made before starting every job. This results in a flexible security concept tailored to the client. With a final implementation plan, very high-quality, on-schedule project implementation can be ensured.

## CIB – Comprehensive solution from a single source

We have considerable competency in the areas of security, service, and facility. With our expertise, we develop innovative and integrated comprehensive solutions for our clients. Our philosophy and the CIBORIUS pledge of performance are what guide and drive us.

As a trailblazer in the service sector, we consider it an obligation to always be in touch with the latest trends. Our vision for the future and our high demands on the quality of our performance and customer service set the bar!

We bring our goals to life  
– and our goal is to bring  
you into the future!

A photograph of three CIBORIUS employees in high-visibility vests (two yellow, one red) and white shirts, standing outdoors and reviewing a tablet together. The background shows a cloudy sky and a building. The image is framed by a white diagonal line.

CIBORIUS is your  
professional partner for  
security and service.

We offer services as a complete  
solution in the areas security,  
facility, and service – no matter  
what service you are  
interested in.

# Service catalogue for security

**CIBORIUS**

## // Plant and property protection

CIBORIUS is your experienced partner for guarding industrial properties, government agencies, various institutes and buildings in the public sector. Our range of services also includes assignments in public transportation, train stations, and parking lot surveillance.

We secure your property with conventional inspection rounds, entrance checks and modern surveillance technology.

## // Person and baggage checks

When security needs are especially high, person and baggage checks are indispensable security measures.

Especially at airports, large events or state institutions, CIBORIUS is there with

- the required number of certified security personnel (aviation security control personnel in acc. with Sect. 5, 7, 8, 9 Aviation Security Act LuftSiG) or
- security technology ready to deploy.

## // Security solutions

The experience of specialized employees is complemented by the use of ultra-modern security solutions.

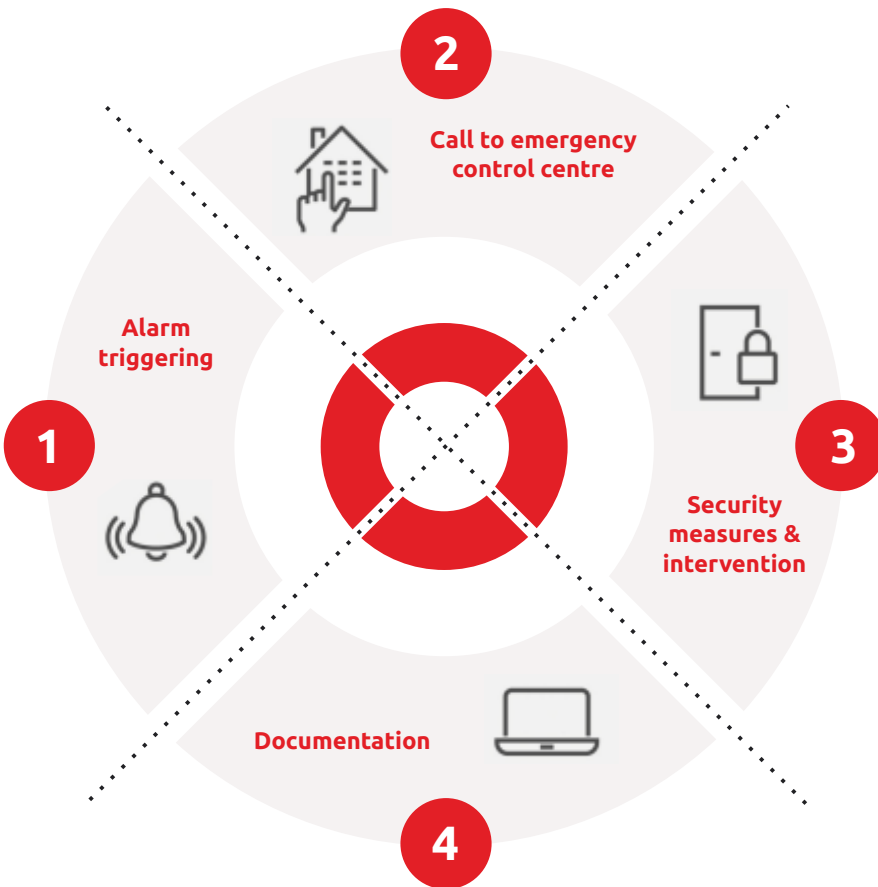

Pre-defined incidents are reported via ultra-modern surveillance systems. The CIBORIUS emergency and service control centre monitors several objects simultaneously and directs the deployment of employees centrally.

## // Mobile security

The interaction of mobile security personnel and a modern alarm system monitored by the control centre is an effective solution for comprehensive surveillance. Your buildings are equipped with ultra-modern security technology ready to send an alarm. Our employees in mobile units are informed immediately when an alarm comes in and can take action if needed.

In addition to rounds in designated areas, checks of buildings and grounds and ensuring that production and storage facilities are locked play an important role.

- Consulting (advice/concepts)
- Plant and property protection
- Construction site security
- Mobile security (alarm follow-up in the district)
- Event security
- Person and baggage checks
- Remote video monitoring
- Security technology
- Investigation services
- Security escort

Graphic: Sequence and effect of alarm activation

## Emergency and service control centre

CIBORIUS has its own ultra-modern emergency and service control centre based in Frankfurt am Main.

Every day, up to several thousand reports are processed and coordinated all across Germany. CIBORIUS security personnel check incoming emergency, disruption, fire, or break-in reports around the clock.

The emergency and service control centre allows the simultaneous surveillance of many locations and properties via remote monitoring.

# Calatogue of services

## Our services

Our extensive range of security solutions is complemented by coordinated services.

CIBORIUS trains service employees to support your company.

Our employees represent your company in a pleasant, professional manner.

## // Post and telephone services

Do you want to be readily available to your clients without having to provide personnel and equipment? We can run your telephone service and are available for your clients even in your absence. Our office services grow to meet your needs. Whether during regular working hours or 24/7 – we are there for your clients.

## // Personnel service

A company's success is based on the professional communicative competence of its employees. Finding employees with the necessary skills is difficult and time-consuming.

Our personnel service has an established network consisting of the most diverse individuals from numerous sectors. We recruit skilled employees who meet the specified concepts for personalities and qualifications.

## // Trade fair service

Taking part in a trade fair gives you the opportunity to present your company successfully to a select target group, make new contacts, and gain new clients.

In addition to an attractive booth, communicative, dedicated hostesses and promoters are your best means of making a long-lasting impression among many competitors. Multilingual employees are also available for international trade fairs.

● Reception services

● Hostess service

● Post, courier, and phone services

● Wardrobe service

● Chauffeur service

● Trade fair service

● Personnel service

# Catalogue of facility management services

## Our facility management

Facility management comprises a broad range of services for the maintenance and management of buildings and grounds. Outsourcing operations to CIBORIUS Facility Management makes it possible to lower management costs permanently and preserve the value of the respective buildings and grounds over the long term.

### // Maintenance

The value of your technical systems can be preserved with proper handling. Our experts ensure the long-term functionality of your technology. The readiness of your systems can be guaranteed by reliable technical monitoring and maintenance.

We focus our strength on this – 365 days a year!

- Compiling a professional maintenance plan
- Monitoring systems (building technology, production technology, etc.)
- Regular maintenance
- Start-up of facilities

## // Caretaker service

Our qualified employees are available as friendly, reliable contact persons in your location. We monitor technical systems and initiate immediate measures in the event of disruptions. We carry out minor and major repairs on your property with great care.

We would also be happy to be the contact partner for your building management or owner association.

- Maintenance of technical systems
- Clearing out
- Traffic security
- Renovations
- Paint work
- Electrical work

## // Air-conditioning technology

We can no longer imagine working in closed spaces without air-conditioning. Our air-conditioning technicians are available for everything involving installation, maintenance, and repairs. We not only equip new buildings with customised climate control, we also install the latest air-conditioning technology in existing buildings.

• Building and operating technology

• Air-conditioning technology

• Cleaning

• Landscape maintenance

• Winter service

• Caretaker services

• Hygiene service

• Building management

• Electrical installation
